LAURA MARTINEZ

Cloud Solution Architect | Security & Technical Product Leader

P +34 653152802 E laura@martinez-gonzalez.es A Málaga, Spain W lauramrtnz

Objective

Security & Technical Product Leader with 20+ years of experience helping enterprise customers design, modernize and deliver complex software platforms across cloud-native environments. Strong background in solution architecture, API ecosystems, cloud adoption (AWS & Google Cloud), technical discovery, stakeholder management and digital transformation.

Experienced in leading customer-facing workshops, translating business challenges into scalable technical architectures, and collaborating with engineering, sales and executive stakeholders throughout the solution lifecycle.

Certified in AWS, Google Cloud and Microsoft Security with additional specialization in Malware Intelligence, Computer Forensics and Cloud Security. Passionate about helping organizations modernize securely while improving observability, operational resilience and delivery excellence.

Experience

2024 - Present

Technical Product Manager – Globant

• Led customer discovery workshops to define cloud-native solution architectures for enterprise clients including Qiddiya, Diriyah and Sportian.

• Partnering with executive stakeholders to translate business objectives into scalable cloud solutions across web, mobile and backend platforms.

• Facilitated technical discussions between business and engineering teams, ensuring architectural alignment throughout delivery.

• Produced solution proposals, technical documentation and architecture recommendations supporting customer decision-making.

• Led Identity Provider (IdP) architecture for LALIGA Social multitenant platform, improving scalability and customer adoption.

• Conducted technical assessments of existing platforms and recommended modernization strategies.

Achievements:

- Successfully launched IdP double opt-in inside clubs with multitenant, with expected customer adoption and quality of data by 25%

Education

- Reverse Engineering and Malware Intelligence | UMA & Google 2021
- Business Analyst & AgilePM | APMG International 2020
- Computer forensics and audit with Kali | UMA - 2014
- MBA | Málaga University 07-08
- ms computer science | malaga university [05-07]
- BS COMPUTER SCIENCE | MÁLAGA UNIVERSITY [00-04]

KEY SKILLS

- COMMUNICATION
- EMPATHY
- RESILENCE
- ANALYTICAL
- TECHNICAL BACKGROUND

- Streamlined the feedback and impact reporting process, and tech debt increasing efficiency and alignment with other teams.
- Enhanced team methodology and proposal accuracy through competitive analysis and fit assessments, leading to increased proposal acceptance rate.
- Managed technical roadmap for infrastructure modernization initiatives, coordinating engineering teams and customer priorities.

2021 - 2024

Technical Product Manager – Novax

- Made technical architecture decisions, shaping complex product software.
- Established API security best practices and secure software development guidelines across distributed engineering teams..
- Led cloud infrastructure modernization initiatives, improving deployment automation, observability and platform resilience..
- Managed infrastructure projects' lifecycle, contributing to strategic product prioritization.
- Optimized performance, achieving a 3300% speed increase in processing times.
- Defined OKRs and KPIs, improving company productivity by 25%.
- Organized a community of practice for Product Owners and managed distributed teams across four countries.

Achievements:

- Reduced query response time from >30 seconds to 1 second.
- Cut deployment errors by 70% through OKR and KPI-driven improvements.
- Improved team collaboration and impediment resolution, increasing delivery efficiency.
- Improved system observability through monitoring, alerting and operational dashboards supporting proactive incident management.
- Collaborated with customers and technical stakeholders to define architecture evolution strategies for critical healthcare supply chain platforms.

2018 - 2021

Sr Business Analyst – Novax

- Established a PO community for dependency identification and risk mitigation.
- Developed requirements guide adopted by 90% of consultants for developer usability.
- Optimized workflows to achieve 100% customer satisfaction.
- Automated release deployment and implemented Gitflow for 90% of teams.

Achievements:

- Reduced deployment errors by 70% using improved metrics.
- Achieved 100% adoption of standardized processes across teams.
- Enhanced team efficiency by defining clear & actionable KPIs.

2010 - 2018

Sr. Analyst - Avanade

• Designed Service-Oriented Architecture (SOA) strategies enabling application modernization and enterprise integration.
• Led technical migration planning for enterprise applications.
• Produced architecture documentation and solution designs from customer requirements.
• Collaborated with business stakeholders and engineering teams during migration and implementation projects.

Achievements:

- Spearheaded SOA strategy adoption, reducing integration issues by 50%
- Enhanced team skills and performance through mentorship programs.

2004/ 2005 – 2010 Tech University of Dresden (Germany)

CERTIFICATES

- AWS Solution architect (SAA)
- GCP – Cloud digital leader
- SC-900. Security compliance and identity
- AWS cloud practitioner
- BSC BA Foundation
- Scrum developer and scrum master
- ITIL
- OMG. BPM
- HL7 / FHIR

Analyst - ARI Business Solutions

VOLUNTEERING

TEDx Málaga – Speaker coach – 2023 - Present
Community manager | Oxfam Intermon – 2014 - 2018
Mentor | Aspire project – London 2015 – 2017
Work camp volunteer | Service Civil International – India 2008
